

**HOW TO OCCUPY WALL ST. EFFECTIVELY ON YOUR OWN TURF
FIGHT WITH YOUR WALLET TO HURT THEM WHERE IT COUNTS
THIS IS THE ONLY VOICE THEY CAN HEAR LOUD & CLEAR**

1. Do not borrow money from banks & stop using credit cards – cash only!

Stop giving them your money!

2. Learn to barter for goods

Try not using their money!

3. Shop locally owned stores!

Shopping local creates the need for local jobs and supports the local economy.

4. Avoid large corporate stores such as Walmart, Costco, or any other Chinese import store.

Avoiding chain stores keeps our money out of the hands of the corporations and special interest lobbies that are buying our government.

5. Grow as much of your own food as you can.

Window gardens, patio gardens, or a backyard garden – do what you can.

6. Buy used items instead of new.

Use your local swap n shop and read classifieds. Often items can be found for free.

7. Start a business producing real physical goods and sell locally.

Be a productive member of society – start part-time and grow.

8. Recycle old items.

Recycling an old item to a new purpose saves money – be creative!

9. Avoid fast food restaurants.

Fast food is low in brain nutrition & usually corporate owned.

10. GET EVERYONE YOU KNOW INVOLVED, ESPECIALLY THOSE IN YOUR OWN NEIGHBORHOOD! SHARE YOUR GARDEN & GET TO KNOW YOUR NEIGHBORS
